DETAILED ACTION

1. This office action is in response to the Request for Reconsideration filed on 11/20/08. Upon further reconsideration, the last final rejection mailed on 9/12/2008 is hereby withdrawn and a new non-final rejection is set forth below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 11-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 11, the applicants added the claimed limitation “Method for purging sulfate from a NO_x trap associated with oxidation catalyst” is considered new matter since the originally filed disclosure does not contain any support for the invention as now claimed.

The amendment filed 6/23/08 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure. Applicant is required to cancel the new matter in the reply to this Office
